

IN MEMORY OF
BOB PERRY

We All Remember
a Beloved Mentor
and Friend

Bob from Peterson's

A kind and caring man, dedicated to his family, church and community.

Robert F. Perry more commonly known as Bob Perry
more widely known as Bob from Peterson's.

Born September 16, 1927 in Peekskill, residing and working in Peekskill his entire life. Eagle Scout, Seas scout, US Army veteran, Loving Husband and father. Not long after taking a job at Peterson Auto Parts on South Street he started to become known as the go to guy for any problems related to cars or just about any other type of equipment or machinery. During the course of his 40+ years people would bring him something that they thought was totally hopeless to repair and he would work his magic and not only make it work as good as new but would show them what was wrong and how it was repaired. His passion for helping people was only overshadowed by his friendly personality. He would always say watch out for the little things, they are the things that'll get you. He took great pride in being able to keep up with changing technologies that made him an even more valuable part of the automotive community. In his later years the thing that made him the happiest was going to car shows and discussing anything car related with the younger generation. He looked forward to and was especially fond of the fall Road Knights Car Show at the Peekskill riverfront. Always one to recognize with a smile and a kind word a job well done. Bob was a staple of the automotive community most of his life and has positively touched either directly or indirectly a good number of people here today. He was taken to heaven on May 28, 2016 and will be forever missed, but certainly not forgotten. Our family would like to thank everyone for the kind word and remembrances and a special thanks to the Road Knights Auto Club of Peekskill from his family. Wife Mary, sons Robbie, Donald, daughter Carol, 5 grandchildren and 5 great grandchildren.

**A Trophy will be presented
today in Bob's Memory**
